

**DULWICH COLLEGE**  
| SINGAPORE |

# WORLDWIDE PARTNERSHIP PROGRAMME

# OVERVIEW

The Worldwide Partnership Programme is an initiative designed to enrich the learning experiences of our students by creating connections between the College and the world of work.

At Dulwich College (Singapore) we stand by our motto, 'Detur Pons Mundo'; Building bridges to the world. As such, we aim to provide students with real-life experiences and connections that will bridge their learning with practical applications and the world of work; developing their ability to become the doers, creative thinkers, innovators and leaders of tomorrow.

Collaboration between industry and the College will allow our students to conceptualise their learning in a way that is real-world, relevant and meaningful. At the same time students will have the opportunity to gain a deeper understanding of various industries and potential career opportunities.

Through the Worldwide Partnership Programme, we seek to partner with companies and organisations in the following areas:

- Science, Technology and Engineering
- Business, Finance and Entrepreneurship
- Art and Creative Industries
- Public Affairs and Law
- Sports and Fitness

The types of programmes and initiatives we are seeking to establish include:

- Formal education programmes
- School-based workshops
- Leadership / Industry talks
- Work experience / Internship opportunities
- Workplace visits
- Sponsored competitions

Each Worldwide Partnership can be unique, and we will work with your company to help design and develop programmes or initiatives that best meet the needs of our students and objectives.

# PROGRAMME GOALS

- To improve and reinforce students' skill development and supplement classroom curriculum with relevant learning experiences in business.
- To give students a realistic picture of the business world and make them aware of the range and extent of business activities and opportunities.
- To establish a mechanism for businesses and Dulwich College (Singapore) to share expertise with one another.
- To develop mutual support and understanding between education and business.

Should your company wish to be involved in the **Worldwise Partnership Programme**, please contact Piers Matthews, Director of Admissions and Marketing ([piers.matthews@dulwich.org](mailto:piers.matthews@dulwich.org)) so we can explore options together.
