LITA

West End in a Week "Festive Edition"

"The best way to understand professional theatre is to experience it." LITA

West End Professionals × Acting, Singing & Dance × Final Stage Performance

Over six days, students move from the rehearsal room to the stage, working with LITA's West End professional team as a theatre company to create and perform a musical theatre production. From character, dialogue, singing and dance to staging and scene work, the production develops through rehearsal and professional feedback.

The programme draws on festive favourites including *Frozen, A Christmas Carol, Elf, White Christmas, The Snowman and The Grinch*. Final songs, scenes and performance material will be selected according to the teaching and production plan for each programme.

Age Group **11–17 years**	Dates **Beijing: 19–24 Dec 2026** **Shanghai: 27 Dec 2026–1 Jan 2027**	Location **Beijing | Shanghai**	Language **English**
Daily Schedule **9:00–17:00** *(indicative)*	Programme Type **Day Camp**	Class Size **20**	Programme Partner **LITA** London International Theatrical Arts

LITA & REPRESENTATIVE TUTOR TEAM

45+
Years of Combined Industry Experience

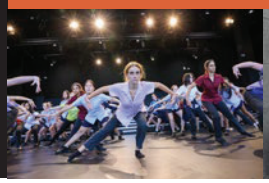

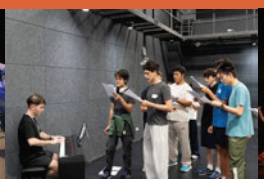

30+
International Schools

Programme Partner | LITA
London International Theatrical Arts

LITA is a professional performing arts education organisation based in London. Its core team includes actors, directors, choreographers and musical directors working across musical theatre, drama, television and film, with the founding team bringing more than 45 years of combined industry experience.

Since 2013, LITA has worked with more than 30 international schools around the world, including Tanglin Trust School, Shrewsbury International, Dulwich College, UWC South East Asia and British School Jakarta. LITA is also an **Affiliate Member of FOBISIA (Federation of British International Schools in Asia)** and a **Supporting Associate of COBIS (Council of British International Schools).**

For this programme, LITA is responsible for curriculum design, the professional tutor team, musical theatre training and stage production support.

Representative Tutors | West End & Professional Stage Experience

Noel Sullivan
Director of LITA

West End performer, singer and director. His career began with multi-platinum pop group Hear'Say before moving into musical theatre, with credits including *Grease, Chicago, Rock of Ages and Priscilla Queen of the Desert.*

James Bennett
Director of LITA / Choreographer

Choreographer and creative director with extensive experience across theatre, television and live performance. His credits include work on *Britain's Got Talent, Strictly Come Dancing* and major theatre productions including *The Wizard of Oz.*

Nikki Schofield
Performer / Choreographer

With more than 20 years of professional stage experience in the UK and internationally, Nikki trained at Laine Theatre Arts and has worked on productions including *We Will Rock You, 42nd Street* and *Mack & Mabel.*

George Ure
Performer / Teacher

George began his West End career in Wicked and has since performed in productions including *Just For One Day: The Live Aid Musical* and *Sweeney Todd.* He has also taught at London's Urdang Academy.

Final teaching tutors, course content and programme arrangements are subject to confirmation.

Curriculum & Rehearsal

Acting, voice and dance come together around the same production, developing through rehearsal into a complete musical theatre performance.

Acting & Character
Develop character, dialogue and stage expression through scene work and rehearsal.

- Acting & Scene Study
- Character Creation
- Screen Acting
- Audition Technique

Voice & Acting Through Song
Develop vocal skills and bring character and emotion into the songs.

- Vocal Coaching
- Acting Through Song
- Ensemble Singing

Dance & Choreography
Explore movement, rhythm, formations and stage blocking, bringing choreography into the production.

- Musical Theatre Dance
- Choreography
- Commercial Dance Workshop

Industry Masterclasses
Gain insight into professional musical theatre through masterclasses and Q&A sessions.

Six Days, From Rehearsal Room to Stage

DAY 01
Joining the Musical Company
Meet and greet · Drama games · Physical and vocal warm-ups · Full-company vocal rehearsal · First full-company choreography and feedback

DAY 02
Vocal & Stage Creation
Full-company warm-up · Solo vocal masterclass · Flashmob creation · Continued full-company rehearsals and adjustments

DAY 03
Character, Scenes & Choreography
Performance choreography · Individual / group scene and script work · Group rehearsals · Ensemble singing and vocal masterclass

DAY 04
Expanding Performance Skills
Commercial dance training · Musical theatre masterclass · Screen acting training · Full-company rehearsal · Tutor feedback

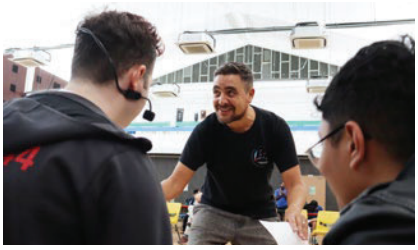

DAY 05
Into the Theatre
Bring the showcase together · Refine songs, choreography and stage blocking · Technical rehearsal in the theatre

DAY 06
Dress Rehearsal & Final Performance
Full-company warm-up · Sound and lighting rehearsal · Full dress rehearsal · Final adjustments · Showcase performance

What Will Students Take Away After Six Days?

A Complete Stage Production

Experience the full creative journey from rehearsal to live performance.

A Fuller Understanding of Musical Theatre

Understand how acting, singing and dance work together to serve character, story and stage.

A First-Hand View of Professional Theatre

Experience the working methods and rehearsal process of professional musical theatre with guidance from West End professionals.

LITA Programme Certificate

Students who complete the programme will receive a LITA programme certificate.

Programme Fees

Market Price	**EIMx Early Bird Price**	EIMx Student Price
RMB 14,800	**RMB 12,850**	RMB 13,350

Programme Requirements

English Requirement |

Students should have a good level of English comprehension and communication, as the programme is delivered entirely in English. Songs, scripts, scene work, rehearsals and tutor feedback will all be in English.

Performance Experience |

Previous professional stage experience is not required. Students should have a strong interest in musical theatre and be ready to take an active part in rehearsals.

How EiMx Selects & Safeguards Every Programme

Age & Learning Fit → Partner & Staff Review → Programme-Specific Risk Review → Pre-Camp Confirmation → Ongoing Monitoring During Camp → Post-Programme Review

Learning value, delivery quality and safeguarding together form the EiMx programme standard.

WHY FINLAND

Why Explore Finland with EiMx?

01

From University Cities to Arctic Lakes

Children will encounter different ways of life in Finland. Travelling north, they will see how geography and climate shape local communities, education and everyday life, gaining a deeper understanding of how people live and learn alongside nature.

02

Sámi Culture, Ice and Snow: Understanding the North

As they travel north, children will begin to understand how life in the Arctic has taken shape, while learning to observe and reflect on the relationship between people and their environment.

03

Winter Adventures Help Children Find Their Own Way

From trying skiing for the first time to stepping onto an ice rink, speaking a new language and adapting to unfamiliar surroundings, children will encounter many firsts. These experiences help them discover what they can do for themselves and find the confidence to take on new challenges.

04

A Shared Journey, with Each Family Discovering Its Own Finland

Children can enjoy the snow, outdoor activities and a new language environment, while parents experience Finland's nature, culture and everyday life. Each family can find its own Finland and make its own winter memories.

05

Every Family Has a Dedicated Communication Channel

From registration and pre-departure preparation to communication throughout the trip, each family will receive clear guidance, timely responses and ongoing support.

THE ROUTE

Ten Days Heading North

Helsinki → Rovaniemi → Northern Finland → Helsinki

01 Discover Helsinki

Arrive, settle in and adjust to the new surroundings as the winter journey begins in Finland's capital.

02 From Architecture to the Story of Rovaniemi

Visit the Rock Church and Helsinki Cathedral, exploring the city's architecture and urban history.

03 Design Your Journey North

Explore design museums and the Design District. Depending on the final arrangements, continue north by overnight train or domestic flight.

04 Cross the Arctic Circle

Visit Santa Claus Village and cross the Arctic Circle. At Arktikum, learn about Arctic nature and culture before continuing to the youth camp in northern Finland.

05 Winter with Sámi Traditions and Reindeer

Experience Sámi culture, reindeer activities and the festive winter atmosphere in Finland.

06 Make Lapland Part of Everyday Life

Enjoy snow tubing, ice fishing and hands-on activities, experiencing everyday life in the Arctic.

07 Into the Winter Forest

Try snowshoeing and other winter activities, exploring the northern landscape.

08 Discover Sámi Culture in the North

Learn about Sámi culture and traditions. Activities and visits will be arranged according to the final itinerary.

09 Return to the City: Science and Universities

Visit Heureka Science Centre and a Finnish university, exploring science and learning on the journey back from the Arctic.

10 Bring Finland Home with You

Visit Oodi Central Library and explore the city's museums, bringing the ten-day journey to a close.

Specific venues, transport arrangements and daily activities may change according to weather, snow conditions, availability and operational requirements. Final arrangements will be confirmed before departure.

Supporting the Winter Journey

Helsinki | Four-Star Hotel Accommodation

Four-star hotel accommodation provides a comfortable and peaceful base for exploring the city and resting during the family journey.

Northern Transport | From the City to the Arctic Circle

Transport to northern Finland will be arranged according to the season, weather and availability. Options may include a VR overnight train or a domestic flight. A private compartment for two may be available on the overnight train, subject to confirmation.

Northern Finland | An Authentic Youth Camp Experience

Stay at a youth camp in northern Finland, with time for forest exploration, snow activities and outdoor experiences, offering a taste of everyday winter life in the north.

About the Northern Lights

The Northern Lights are a natural gift. If they appear on a clear night, they may become an unexpected highlight of the journey.

Language & Travel Support

The programme is conducted primarily in English, with support from a Chinese-speaking team.

Families are encouraged to travel together. Independent student participation can be arranged upon request, subject to age, group composition and final arrangements.

Programme Partner

同趣有方
FUNLINK

Established in 2014, Funlink develops educational travel, overseas study tours and experiential learning programmes. Its overseas camp and study-tour network spans multiple countries and has served more than 100,000 students and 30,000 families.

For this programme, Funlink supports local resource coordination in Finland, itinerary delivery, activity coordination and related travel arrangements. EIMx oversees programme selection and management, with a focus on educational value, family experience, safety and quality of delivery.

How EiMx Selects & Safeguards Every Programme

Speak with Purpose

English Speech Camp

Expression begins with knowing what you think. Finding your voice means learning to think for yourself. Long before a child steps onto the stage, their ideas begin to take shape through reading, observing and reflecting.

Over five days, students explore economics, space, international relations and finance through reading and discussion. They learn to question what they hear, evaluate information and develop their own perspectives.

In the afternoon, they put their ideas into words. From research and speech writing to practice, feedback and revision, students learn to build a clear argument, support it with evidence and deliver it with confidence.

From thinking to speaking, students learn not only how to express their ideas, but how to develop them with clarity and conviction.

Fees, Partner + Registration

Programme Fees

Pathway	Length	Standard Fee	EiM Student Fee	EiM Student Early Bird Fee
Eureka	5 days	RMB 10,800	RMB 9,800	**RMB 9,600**
TED Junior	5 days	RMB 13,800	RMB 12,800	**RMB 12,300**
TED Talk	5 days	RMB 13,800	RMB 12,800	**RMB 12,300**

Early Bird ends 31 October 2026

Programme Partner | LOZO

LOZO specialises in English public speaking, debate and critical thinking education. Its pathway-based curriculum moves from early speaking foundations into original speeches, issue-based discussion and competitive debate, with content matched to students' age, experience and stage of learning.

How EiMx Selects & Safeguards Every Programme

Age & Learning Fit › Partner & Staff Review › Programme-Specific Risk Review › Pre-Camp Confirmation › Ongoing Monitoring During Camp › Post-Programme Review

Learning value, delivery quality and safeguarding together form the EiMx programme standard.

Entry Requirements

English Requirement | Non-EiM students should provide evidence of their English proficiency. Where this is not available, a short interview may be arranged to assess whether the student' s English level is appropriate for the programme.

Register Your Interest

Interested in this programme? Scan the QR code to register your interest, and a member of our admissions team will be in touch. You can also email us at camp@eimglobal.com.

Coaching Team + Learning Feedback

The LOZO coaching team brings experience in international competition, public speaking, curriculum design, day-to-day teaching and adjudication. The coaches below are representative; final teaching assignments are subject to confirmation.

Hans von Meister | Founder, LOZO

An alumnus of The Lawrenceville School in the United States, Hans has served as a judge at WIDPSC and other international debate competitions, and has long worked in youth speech, debate and international education programme design.

Coach Nikola | Academic Lead

With dual Master' s degrees in Law and Global Public Policy and a background in parliamentary debate, Nikola works across curriculum development, argumentation training and academic quality.

Coach Andreas | Speech Coach

Andreas has judged National Speech & Debate Association-related competitions and has placed first and second in Toastmasters International speaking competitions.

Learning Feedback

All three pathways are planned to use the CIL communication performance record. During the course, coaches track students across content, structure, English expression, voice and body language, then provide end-of-course feedback so students and parents can see what is already working, what still needs practice, and what the coach recommends next.

The programme will also keep samples of students' classwork, revised drafts and final presentations, allowing students and parents to look back on their progress over the five days.

Course Pathways + A Day of Learning

The course pathways match different ages and stages, moving from moving from early speaking foundations into original speeches. Each begins with thinking clearly before speaking clearly.

Eureka

Length 5 days **Year Group** Y1–Y3 / KG–G2

Focus & Outcome

Observation, discussion, planning, practice and revision; individual or group presentation.

TED Junior

Length 5 days **Year Group** Y4–Y6 / G3–G5

Focus & Outcome

Research, structure, drafting and rehearsal;5–7-minute original speech.

TED Talk

Length 5 days **Year Group** Y7–Y9 / G6–G8

Focus & Outcome

Independent topic selection, source evaluation, content revision and visual aids; 7–10-minute original speech.

Morning | Thematic Learning

Morning sessions build the knowledge students will draw on later in the day. Younger students enter through stories and everyday situations; Y4 and above use news, cases and discussion to meet facts and different points of view.

Y1–Y3 / KG–G2	Everyday Economics	Choice, exchange, price, saving and spending.
Y1–Y3 / KG–G2	Space Exploration	Planets, the universe and space missions; organising observations into speech.
Y4–Y9 / G3–G8	International Relations & World Issues	International relations, global organisations, media bias, the Global South, China in the 21st century and global summits.
Y4–Y9 / G3–G8	Economics & Finance	Economic and financial foundations, business operations, market simulation and budgeting.

Afternoon | Speech & Debate Practice

In the afternoon, students apply what they have learned in speech training. Through discussion, writing, practice, feedback and revision, they develop clearer, better-supported ideas.

Younger students learn through games, creative activities and speaking exercises, while Y4–Y9 / G3–G8 build more structured skills in topic selection, research, speech writing, vocal delivery, body language and stage presentation.

Sample Timetable

	Y1–Y3 / KG–G2	Y4–Y9 / G3–G8
9:00–12:00	Thematic exploration and speaking	Thematic learning and discussion
12:00–13:00	Lunch and break	Lunch and break
13:00–16:00	Games, creation and speaking practice	Speech Practice

Themes, sequence and timings may be adjusted to reflect actual teaching arrangements.

Fees, Accommodation + Registration

Standard Fee	|	RMB 23,800
EiM Student Fee	|	RMB 21,800
EiM Student Early Bird Fee	**|**	**RMB 20,800 | Early Bird: (Ends 31 October)**

Accommodation & Camp Management

This is a seven-day residential programme. Travel, accommodation and group activities in Hong Kong are arranged and managed by the programme team.

During the National Day holiday, accommodation is planned at a Ctrip Four-Diamond hotel, generally with 2–3 students per room. Group leaders will carry out nightly room checks. The final hotel is subject to confirmed booking.

Programme Partner | SenseTime

商汤教育
sensetime edu

SenseTime works across fundamental AI research and industry applications. For this programme, SenseTime contributes to the AI curriculum and practical learning, and provides related learning and experience settings in Hong Kong.

How EiMx Selects & Safeguards Every Programme

Learning value, delivery quality and safeguarding together form the EiMx programme standard.

SenseTime AI & Future Tech

Artificial Intelligence × SenseTime × Hong Kong Tech Immersion

Many students have already used ChatGPT, and know that a few keywords can generate an image.But what happens when we ask one question further —Why can a large language model process language?

How are AI images generated?
Why does changing the way we ask a question change the answer?

Understanding AI often begins by asking one more "why".Across seven days, students start with AI tools they already encounter and move into coding, model calls and AIGC creation, building an understanding of the principles and logic behind them.

Age Group
12–16 years

Dates
25-31 January 2027
7 days

Location
Hong Kong

Language

Programme Highlights + 7-Day Itinerary

Programme Highlights

A Build a firmer understanding of AI

Understanding the logic behind the technology helps students move beyond simply knowing how to use a tool. As new AI applications appear, they are better placed to understand, compare and judge what they are seeing.

B See technology in both academic and industry settings

Visits to leading universities in Hong Kong and SenseTime place students in two different environments: research and application. Together, they show more clearly how ideas move from study into the world.

C Move from understanding to making

Creating an individual AIGC project means making choices, testing ideas, revising and explaining the thinking behind the work. Students experience what it means to turn understanding into something they have made themselves.

D Practise independence and collaboration

Seven days away from familiar routines means learning, living and completing daily tasks alongside peers. For students aged 12–16, it is also a real exercise in adapting, collaborating and managing themselves.

Seven days in which curiosity becomes understanding, and understanding takes shape as something of their own.

7-Day Itinerary

Day 1 **Arrival in Hong Kong**
Arrival and welcome | Tsim Sha Tsui | Avenue of Stars | Star Ferry | Victoria Harbour

Day 2 **University Learning + SenseTime**
Chinese University of Hong Kong learning activities | AI and AGI | SenseTime AI application experience

Day 3 **Foundations of Large Models**
Deep learning | Neural networks | Transformers | Model calls | AI image generation

Day 4 **LLMs and AIGC**
Prompting | Generative AI | Individual AIGC project

Day 5 **University + City Culture**
University of Hong Kong | Hong Kong Palace Museum | Central | Victoria Peak

Day 6 **University + Nature**
Hong Kong University of Science and Technology | Ocean Park | Animals and environmental learning

Day 7 **AIGC Showcase**
SenseTime | Individual project showcase | Closing

This is a reference itinerary. Dates and sequence may change according to confirmed bookings; final arrangements will be shared before departure.

Programme Certificate

Students who complete the programme will receive a SenseTime programme certificate, signed by the Dean of the SenseTime Education Research Institute or bearing the Dean's personal seal.

AI Curriculum + Learning Venues

AI Curriculum

The course begins with the development and basic ideas of artificial intelligence, then moves into neural networks, Transformers and large language models. Prompting, model calls and generative AI tasks put those concepts into practice.

AI and AGI

Explore the development and real-world uses of AI, and build a foundation in the ideas of AI and AGI.

Deep Learning, Neural Networks and Transformers

Meet deep learning, neural networks, self-attention and Transformers, and understand some of the technical foundations behind large language models.

Large Language Models in Practice

Call large language models through code and compare how different prompts change the output, making the relationship between input, instruction and model response more visible.

Generative AI

Work with text-to-image, image-to-image and other generative methods, combine AIGC tools, and begin creating an individual piece of work.

Learning Venues

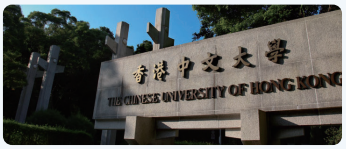

Learning Venues

Leading Universities in Hong Kong
The programme plans learning activities and campus visits at leading Hong Kong universities, giving students a closer view of university learning, research culture and campus life.

SenseTime Hong Kong Office

Students will visit SenseTime's Hong Kong office and AI Experience Centre, seeing how artificial intelligence moves from research into products and practical applications.

Specific venues and timings are subject to host availability and confirmed bookings.
